30

- 31 Subchapter C. Compliance Monitoring, §837.41 and §837.42

- 32
- 33 **PART I. PURPOSE, BACKGROUND, AND AUTHORITY**
- 34 **PART II. EXPLANATION OF INDIVIDUAL PROVISIONS WITH COMMENTS AND**
- 35 **RESPONSES**

36
37 **PART I. PURPOSE, BACKGROUND, AND AUTHORITY**

38 Under Texas Government Code §2001.039, every four years each state agency must review and
39 consider for readoption each rule adopted by that agency. Based on the review, the following are
40 issues and recommendations for amendments to Chapter 837, the Commission's Apprenticeship
41 Training Program rules.
42

43 The apprenticeship training program serves employers and job seekers by training workers for
44 well-paying jobs with promising futures. Apprentices are full-time, paid employees who earn
45 while they learn. The Commission is authorized under Texas Education Code, Chapter 133, and
46 receives an appropriation from the Texas legislature, to grant funds to local public educational

1 institutions to support the costs of related classroom instruction in registered apprenticeship
2 training programs. Local education agencies act as fiscal agents for registered apprenticeship
3 training programs.

4
5 To qualify for funds, apprenticeship training programs and apprentices must be registered with
6 the US Department of Labor (DOL) Office of Apprenticeship.

7
8 Since Fiscal Year 2010 (FY'10), the Commission has supported Chapter 133 by contributing
9 approximately \$1 million in Workforce Investment Act (WIA) funds each year to support the
10 increasing number of apprentices receiving training. Additionally, the Commission leverages
11 funds from other programs, such as the Noncustodial Parent Choices program and Supplemental
12 Nutrition Assistance Program, to maximize the funds available to support apprentice training.

13 14 **PART II. EXPLANATION OF INDIVIDUAL PROVISIONS WITH COMMENTS AND** 15 **RESPONSES**

16 (Note: Minor editorial changes are made that do not change the meaning of the rules and,
17 therefore, are not discussed in the Explanation of Individual Provisions.)

18
19 **Comment:** Eighteen commenters expressed support of the proposed rules. Of these, five
20 expressed appreciation for the Commission's efforts to strengthen the rules and
21 regulations governing the evaluation and operation of all programs applying to the
22 Commission for funding.

23
24 **Response:** The Commission appreciates the comments and the support for the
25 apprenticeship training program.

26 27 **SUBCHAPTER A. GENERAL PURPOSE AND DEFINITIONS**

28 **The Commission adopts the following amendments to Subchapter A:**

29 30 **§837.2. Definitions**

31 Section 837.2(2), the definition of "apprentice," replaces the reference to DOL's "Bureau of
32 Apprenticeship and Training" with the current name, "Office of Apprenticeship."

33
34 Section 837.2(4), the definition of "apprenticeship training program":
35 --replaces the reference to DOL's "Bureau of Apprenticeship and Training" with the current
36 name, "Office of Apprenticeship," and
37 --adds that as required by Texas Education Code §133.002(c), an apprenticeship training
38 program must be under the direction of an apprenticeship committee.

39
40 Section 837.2(5), the definition of "Bureau of Apprenticeship and Training," replaces the name
41 of Bureau of Apprenticeship and Training with the current name, "Office of Apprenticeship."

42 43 **SUBCHAPTER B. FUNDING**

44 **The Commission adopts the following amendments to Subchapter B:**

1 **§837.22. Eligible Applicants**

2 New §837.22(b)(3) sets forth that approved local education agencies must apply for funds for
3 each apprenticeship committee and its apprenticeship training program(s) from either the
4 Commission or the Texas Higher Education Coordinating Board (THECB). Applications are
5 specifically for the following three levels of training:

- 6 1. related classroom training;
- 7 2. supplementary instruction; or
- 8 3. preparatory instruction.

9
10 Apprenticeship training programs can receive funding from one of two sources: the Commission
11 (through Chapter 133) or THECB. THECB's *Guidelines for Instructional Programs in*
12 *Workforce Education* provides that "state funds are available for job-related classroom
13 instruction cost only, never for the on-the-job-training portion of an apprenticeship program.
14 State funds may be accessed from either the TWC or the Texas Higher Education Coordinating
15 Board, but not both."

16
17 Currently, due to limited funding, the Commission provides funding (Chapter 133) only for
18 related classroom instruction. If a training program chooses to receive related classroom
19 instruction funding through the Commission, it cannot receive related classroom instruction
20 funding through THECB. However, apprenticeship training programs receiving funding from
21 the Commission for related classroom instruction can still access THECB funding for
22 supplementary instruction or preparatory instruction training.

23
24 **§837.24. Funding Qualifications for Apprenticeship Training Programs**

25 Section 837.24(2) and (3) replaces the reference to the DOL's "Bureau of Apprenticeship and
26 Training" with the current name, "Office of Apprenticeship."

27
28 **New §837.28. Performance**

29
30 New §837.28:

31 (1) authorizes the Commission to develop and adopt annual performance measures and targets
32 for apprenticeship training programs; and

33 (2) changes the funding mechanism from strictly an application process and authorizes the
34 Commission to consider past performance of apprenticeship training programs in determining
35 eligibility for funding.

36
37 The Commission strives to be a diligent and responsible steward of public funds, with a
38 commitment to transparency and accountability. Measuring program performance allows the
39 Agency to evaluate the effectiveness of programs and make data-driven decisions.

40
41 The Commission has a Legislative Budget Board performance target of 3,600 apprentices
42 served/trained per year and has exceeded this performance target since Fiscal Year 2008. While
43 the Commission does not currently impose performance measures on individual apprenticeship
44 training programs, this new section authorizes the Commission to do so for future years.

45
46 Currently, all interested apprenticeship training programs complete an application process and, if

1 they meet the requirements, register with DOL's Office of Apprenticeship, and receive Chapter
2 133 funding.

3
4 In consideration of potentially diminishing resources and increasing demand for funding,
5 providing the Commission authority in rule to establish annual performance measures and targets
6 ensures that Commission funds:
7 --are being used in the most efficient and effective manner; and
8 --are focused on the most productive and successful apprenticeship training programs.

9
10 Any required performance will be collected for apprenticeship training programs and not for
11 local education agencies serving as fiscal agents.

12
13 **Comment:** One commenter expressed concern that the Commission intends to require
14 program performance measures above and beyond those currently required, and
15 suggested that Apprenticeship Training Councils and the local education agency (LEA)
16 must be involved in their development.

17
18 The commenter stated that proposed performance measures and criteria must be valid and
19 reliable if they are to be used to evaluate individual programs or influence program
20 funding. The commenter stated that the Commission's efforts to objectively and fairly
21 determine "the most productive and successful apprenticeship programs" will be fraught
22 with difficulty. The commenter further alleged that allocating federal and state funds
23 based on such measures will make it even more difficult to guarantee compliance, and
24 that Commission focus might be better given to identifying, rewarding, and promoting
25 innovative apprenticeship programs.

26
27 Finally, the commenter expressed concern that new §837.28 will impose additional data
28 collection responsibilities on the LEAs and Apprenticeship Training Councils, without
29 regard to the cost of creating and/or collecting such data.

30
31 **Response:** The intent of new §837.28 is to provide the Commission with authority in rule
32 to establish annual performance measures and targets. Currently, however, the
33 Commission only collects data that identifies the training programs and their apprentices;
34 it has not established any performance measures for apprenticeship training programs.

35
36 The Commission, which develops and maintains performance measures for multiple
37 training programs under its purview, agrees that to fairly evaluate program performance
38 all measures must be valid and reliable. Performance measures are an effective
39 component of continual improvement and an essential tool to direct diminishing funds to
40 the most successful training programs.

41
42 The Commission's development of any performance measures for apprenticeship training
43 programs will also be open and transparent to allow for stakeholders' input.

44
45 The Commission collects and has access to large amounts of data, including employer
46 and wage data, that is not provided by LEAs or apprenticeship training programs. It is

1 this data that may be used to develop performance measures; however, the Commission
2 does not anticipate placing additional reporting requirements on LEAs or apprenticeship
3 training programs in the development of such measures.

4
5 **SUBCHAPTER C. COMPLIANCE MONITORING**

6 **The Commission adopts the following amendments to Subchapter C:**

7
8 **New §837.41. Funds Management and Accountability**

9 New §837.41 requires local education agencies to comply with the applicable rules in Chapter
10 802 of this title, regarding the Integrity of the Texas Workforce System, specifically:

- 11 (1) Subchapter D, relating to Agency Monitoring Activities;
12 (2) Subchapter F, relating to Performance and Accountability;
13 (3) Subchapter G, relating to Corrective Actions; and
14 (4) Subchapter H, relating to Remedies.

15
16 Section 802.2(1) defines "Agency grantees" as "Grantees that receive funding from the Agency,
17 such as Skills Development Fund, Wagner-Peyser 7(b), and WIA statewide, to provide
18 workforce services." LEAs meet this definition and thus are considered Agency grantees; as
19 such, they must adhere to the applicable requirements set forth in Chapter 802.

20
21 **§837.41. Program and Fiscal Monitoring**

22 Section 837.41 is repealed; the information contained in this section is located in Chapter 802 of
23 this title, regarding the Integrity of the Texas Workforce System.

24
25 **§837.42. Corrective Action**

26 Section 837.42 is repealed; the information contained in this section is located in Chapter 802 of
27 this title, regarding the Integrity of the Texas Workforce System.
