

Guide to Catalog and Supplements

Texas Workforce Commission – Career Schools and Colleges

NOTES: A prospective student is entitled to sufficient data to make a rational choice of training opportunities and institutions. A school is therefore obligated to provide sufficiently detailed data in advance of enrollment to assure that prospective students clearly understand their opportunities, limitations, and obligations.

Prior to an applicant signing an enrollment agreement, a school is required to provide the applicant with a publication, which is readily identifiable as a catalog. The catalog is designed, written, and printed to convey an accurate and dignified impression of the school. It must avoid false, misleading, or exaggerated statements.

Submit a copy of the draft school catalog, supplements, and addenda, etc., which are used to complete the checklist. You will be notified of the approval status of these documents.
